

Livestock Logistics: The Next Frontiers

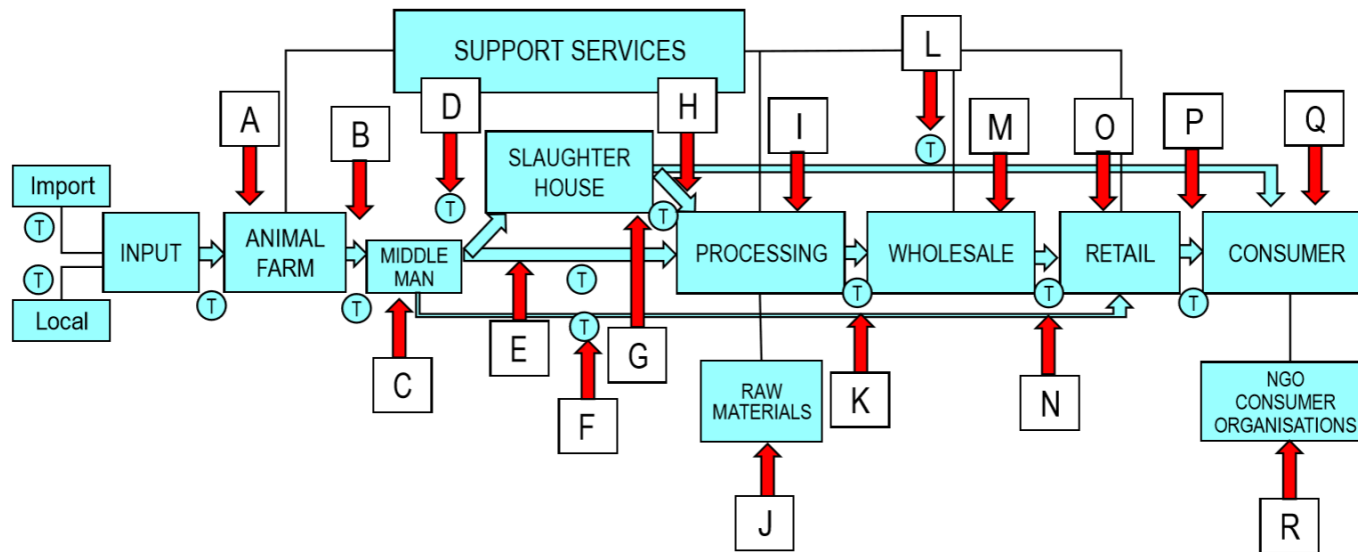

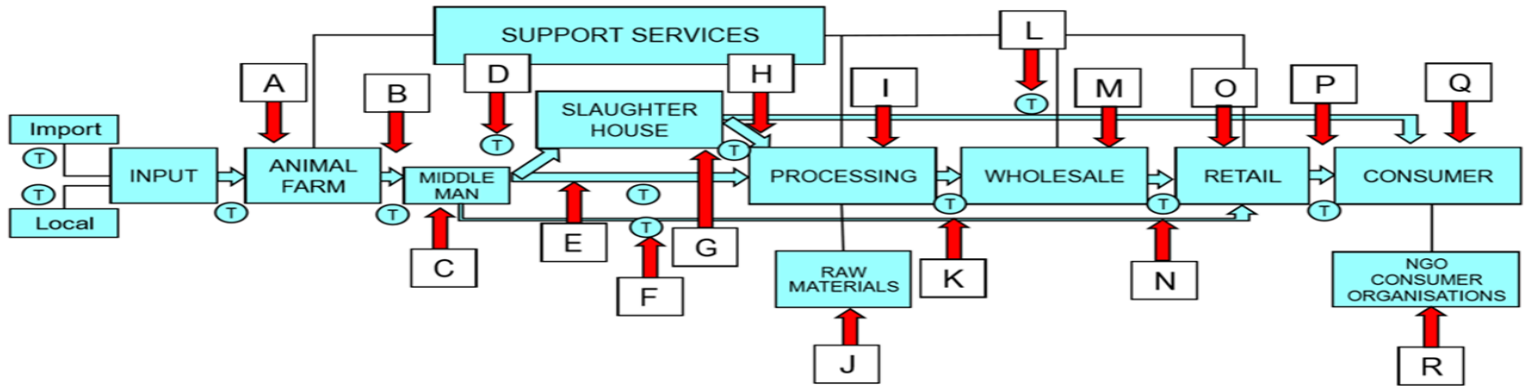

Zaldy Masita
Chairman of **Asosiasi Logistik Indonesia (ALI)**

Bogor

August 2018

Supply Chain of livestock in Indonesia*

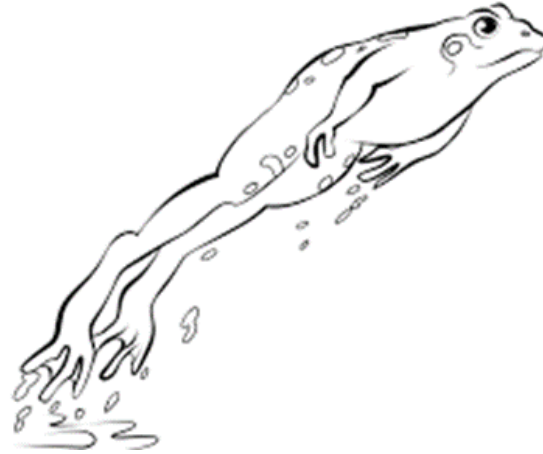

- SKU/Item qty →
- Incremental Value Chain →
- Transport Cost/kg →
- Inventory Cost/kg →
- Waste % →
- Food Safety →

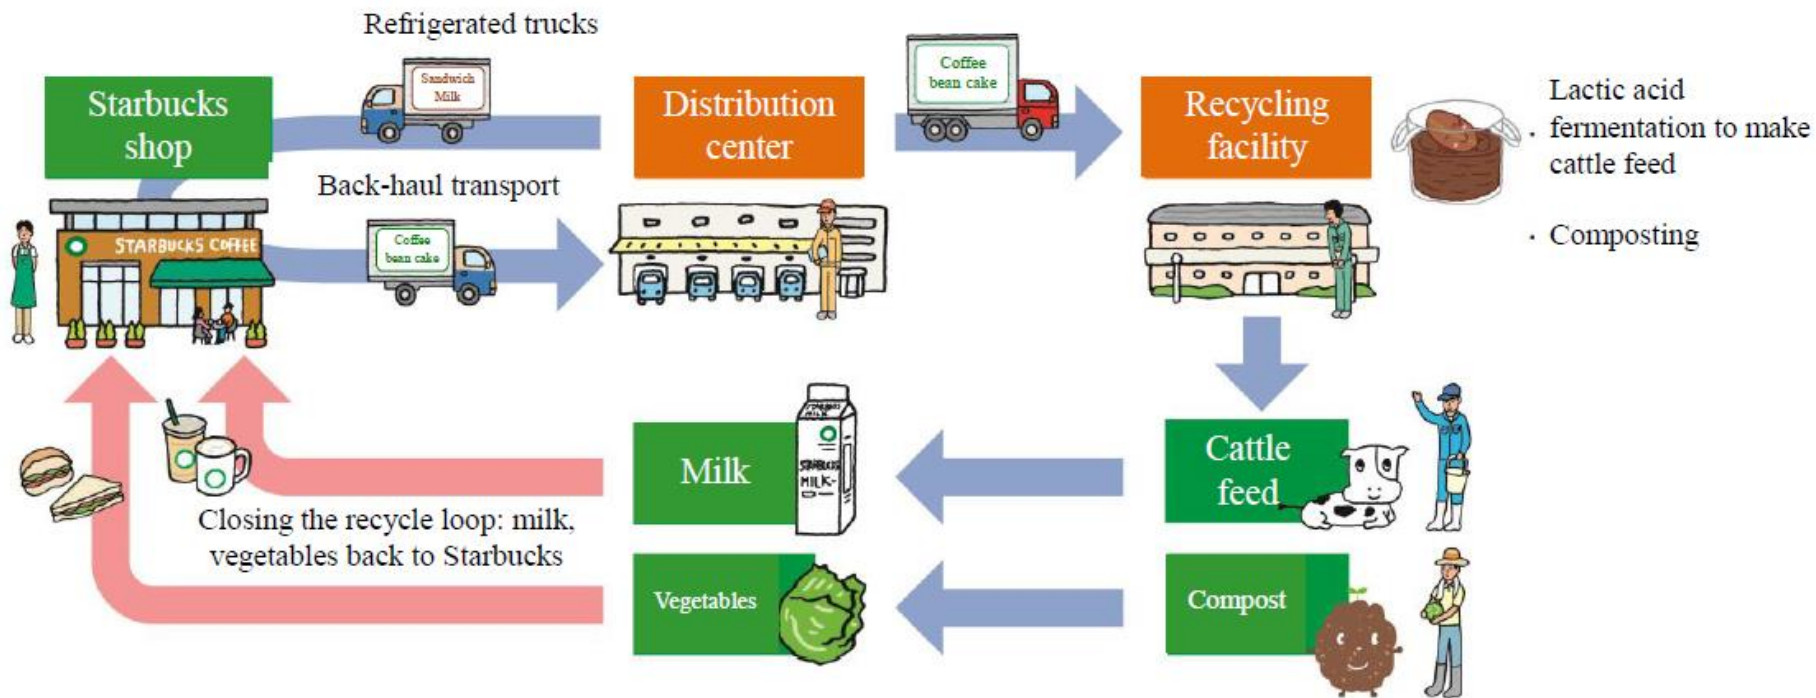

What we need to do?

- **Standardization for Animal/Livestock Logistics**
- **Business & Logistics Model for fast & massive deployment**
- **Improve farmer quality of life & animal quality of meat by using latest technology**

The next-next frontier is “to build live ecosystem”

Recycling coffee beans to make milk

TERIMA KASIH
